Noblesville reader applauds Sheridan student columnist for quality writing

Dear Editor:

As part of my Sunday ritual, I brew a cup of coffee and then settle in with the Sunday Indianapolis Star, which has increasingly become an advocacy piece rather than a newspaper.

Today, the entire first section was dominated by two stories: 1) A story on failure of red flag laws to stop familial shootings; and 2) De-populating prisons to county jails with disappointing results because of alleged mental health problems of the jail population.

Next, I opened my computer and came across the Hamilton County Reporter's column by Sheridan High School's Pearl Henderson, which was better written and more informative than anything the Star conjured up. I hope that she sticks with career choices that involve analysis and communication, because she has skills and insights that are rare today.

Letter to the Editor-

Sheridan reader supports Indiana House Bill 1001

Democratic Senators Tim Lanane of Anderson and Fady Qaddoura of Indianapolis recently said, "We shouldn't politicize Hoosiers' health or lives" referring to HB1001, which supports businesses who give the choice to employees on choosing whether to take the vaccine or not.

This bill would protect employees from being forced to take the COVID vaccine due to religious and or medical exemptions; it would respect the natural immunity of an employee who tested positive with the virus and recovered from the illness; it would also require the employer who insists on unvaccinated employees to take a weekly test to pay for the costs of the tests and it also would not allow an employer to "take an adverse employment action against an employee because the employee has requested or used an exemption from an employer's COVID-19 immunization requirement."

Our economy just experienced the most horrific set back due to the forced "lockdown" of businesses in 2020. The hardest hit were small businesses such as individual entrepreneurs, personal care, restaurants and bars, and entertainment – to name a few.

We don't need to hinder anyone who chooses to work by mandating a vaccine. Every human being is individual in biological make up, and the "one size fits all vaccine" does not work for everyone. Each and every person's medical situation is unique, and that uniqueness may or may not tolerate the COVID vaccine.

Everyone – the media, the medical industry, social media, politicians, Hollywood, family members and the Chambers of Commerce - needs to stop manipulating and harassing individuals who choose not to take the vaccine. Unvaccinated people have their reasons for not taking the vaccine and we must accept that. This group of unprotected people needs to be added to the protected class groups such as the ethnic, gender identity, race, age, LGBTQ, et al., for protection from discrimination.

As quoted by the two Indiana Legislative Senators, I agree: We should not politicize Hoosiers' health care and lives, and should support HB1001 and stop the discrimination.

Merry Christmas, everyone.

TODAY'S BIBLE READING

Further, my brothers and sisters, rejoice in the Lord! It is no trouble for me to write the same things to you again, and it is a safeguard for you. Watch out for those dogs, those evildoers, those mutilators of the flesh. For it is we who are the circumcision, we who serve God by his Spirit, who boast in Christ Jesus, and who put no confidence in the flesh— though I myself have reasons for such confidence.

If someone else thinks they have reasons to put confidence in the flesh, I have more: circumcised on the eighth day, of the people of Israel, of the tribe of Benjamin, a Hebrew of Hebrews; in regard to the law, a Pharisee; as for zeal, persecuting the church; as for righteousness based on the law, faultless.

Huskies win all-county dual over GC

Hamilton Heights hosted Guerin Catholic Tuesday evening for an all-county wrestling dual meet.

The Huskies won the meet 66-16, taking seven of the 10 contested matches. All seven of those wins were by fall, including six first-period pins.

Heights 220-pounder Josh Brown had the quickest pin of the night, winning his match in 27 seconds. Evan Tilton (182), Mason Moran (285) and Alex Furst (126) also got falls within the first 40 seconds. Jaylyn Pugh (132) and Charles Brown (170) were the other two Huskies to get first-period pins, while Michael Cain (152) got his fall in the second period.

"A week and a half ago, we had 70 matches in a Super 6, we had 55 pins," said Heights coach Gary Myers. "We're a pinning team. We're getting better every day."

The Huskies' Carson Fettig (138), Andy Lienemann (195), Cooper Doucette (106) and Isaac Kuhn (120) all received forfeits.

The Golden Eagles' three wins started with Quinn Sutton holding on for an 18-10 major decision victory at 145 pounds. Isaac Richardson then got a third-period pin at 160, and Peter Nguyen won at 113 after an injury default.

"Considering Gary Myers runs a pretty excellent program and his kids are well-disciplined and they do what they're coached, for us, to fight the way we did and come away with three victories on 10 matches, I'm not going to complain," said Guerin Catholic coach Jeff Dunasky.

Heights is 17-1 for the season and travels to Rensselaer Central today to participate in a two-day tournament. The Huskies will wrestle in nine duals over the next two days. The Golden Eagles will next compete in the Mooresville Holiday Classic on Dec. 28 and 29.
