# Westfield Lions finally found a home at their new clubhouse

Photo by Westfield Lion Carl Wurtz

The Westfield Lions Club opened its new clubhouse on Thursday evening. Following a ribbon cutting with the Westfield Chamber of Commerce, the Lions welcomed the public for an open house. The Westfield High School Foodies provided hors d'oeuvres and mini-desserts, and Brandy Dravet of Model Bartenders crafted mocktails and coffee. In addition to club activities, the Westfield Lions plan to rent their clubhouse for business meeting, parties, and more. See more photos on Page 4 and at [ReadTheReporter.com](http://ReadTheReporter.com).

# The power of shared meals

## A taste of community at Still Waters Day Center

Still Waters Adult Day Center is more than a place of care – it is a sanctuary of connection, dignity, and purpose for older adults.

With a person-centered approach, the center recognizes that each guest carries a lifetime of stories, traditions, and evolving needs. Rooted in faith, Still Waters integrates spiritual practices into daily routines, offering moments of reflection through devotions and meal-time blessings.

Beyond faith, the center cultivates a vibrant atmosphere through a diverse array of activities, engaging guests physically, cognitively, socially, and emotionally. Whether through art, music, movement, or interactive discussions, every moment is an opportunity for joy, learning, and companionship.

This past month, I had the privilege of bringing Taste of Community to Still Waters – a gathering where food became more than just sustenance; it became a bridge to laughter, stories, and human connection. We played a unique version of bingo, designed not only for entertainment but as a way to spark organic engagement. Each square led to heartfelt conversations – memories of childhood kitchens, family gatherings, favorite comfort foods, and cherished traditions passed down through generations.

With every number called, stories unfolded. Some were lighthearted, like the nostalgia of a mother's homemade soup. Others carried the quiet weight of longing – of empty chairs at the dinner table, missed birthdays, and the ache of time apart. One moment, in particular, stood out: An elderly gentleman shared that it was his birthday.

# All Things Carmel cost taxpayers \$1.2 million. It never will again.

**The REPORTER**

Findings from a detailed financial and legal review initiated to ensure appropriate use of Carmel taxpayer dollars were discussed at Thursday night's Affiliate Review Committee meeting.

While the full fiscal and legal review prompted in partnership with Mayor Sue Finkam and the Carmel City Council includes four supporting organizations, Thursday's meeting focused on the operation of the All Things Carmel retail store and its supporting organization, Promote Carmel, Inc.

The Promote Carmel, Inc. board of directors voted to close All Things Carmel in August 2024, with the city taking steps to wind down and dissolve the legal entity.

The store, which sold Carmel-branded items and products from local vendors, operated at a loss since its inception and would have required an additional subsidy of \$100,000 to remain open, prompting Mayor Finkam to call for the need to prioritize important expenditures such as police and fire staffing, as well as road maintenance.

"Running a gift store was not an essential City service and subsidizing it did not serve our taxpayers," Finkam said. "That's why we took steps to close the store and redirect those taxpayer dollars to public safety and other essential services. I appreciated the City Council's support on the immediate and decisive actions we pursued to be a better steward of taxpayer resources."

At Thursday's meeting, committee members heard findings from the review, including a summary of annual subsidies to the store that exceeded \$1.2 million over five years. In addition, the review noted that some use of taxpayer funds and donor-directed funds conflicted with city policies and with laws governing the non-profit status of the supporting organization.

City Councilor Ryan Locke, who leads the Affiliate Review Committee, said he was pleased with the detailed review of the affiliate's operations, noting that council and the mayor continue to be unified in the efforts to put appropriate controls in place to ensure taxpayer dollars can only be spent on critical, known, and approved city services, initiatives, and partners.

"We came into office with the intent to protect taxpayers by increasing transparency, oversight and accountability in government operations," Locke said. "The findings from this review highlight some of the issues that can arise with unchecked executive authority. The work of this committee will help us build the right framework of checks and balances to ensure our government and any of its affiliates will operate in the best interest of our city and our citizens - which is, and should always be, the most important mission."

As part of the store's closing, all vendors have been paid and all products returned. The Indiana Secretary of State's Office approved dissolution of the nonprofit March 27.

# Section 504 lawsuit would affect some Sheridan students

Editor's note: The Sheridan Student Column is brought to readers by Sheridan High School's 10th grade honors English class, taught by Tanya Busailah.

According to Fox 59 News, the Indiana state government, as well as the states of Alaska, Alabama, Arkansas, Florida, Georgia, Iowa, Kansas, Louisiana, Missouri, Montana, Nebraska, South Carolina, South Dakota, Texas, Utah, and West Virginia are filing a lawsuit against the United States government deeming Section 504, which protects students with disabilities, unconstitutional. This has led to unrest in many of these states, including ours, which has, in turn, led to protesting.

I intend to show what will happen to certain students of Sheridan High School and throughout Indiana if their lawsuits are upheld. I know this is a politically-based subject, so I will start with only the facts and provable truths.

Section 504 of the Rehabilitation Act of 1973 states: "No otherwise qualified individual with a disability in the United States, as defined in Section 705 of this title, shall, solely because of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance or under any program or activity conducted by any Executive agency or by the United States Postal Service."

# Behold the Lamb Passion play returns April 9

**Submitted by Behold the Lamb Ministries, Inc.**

Come experience the 35th annual Hamilton County Passion Play *Behold the Lamb*, a spectacular live theatrical experience and an Indiana tradition since 1991.

Under the direction of Lisa Jennings for 35 years and featuring over 200 costumed actors and musicians, the 2025 production will be presented in five performances at the Noblesville High School Performing Arts Center on Wednesday, April 9 through Friday, April 11, 7 p.m. each evening, and two Saturday Matinees on April 12 at 11 a.m. and 5 p.m.

What began as a small Easter cantata in 1991 with a cast, choir, and crew of 30 has grown into a large-scale musical production that annually draws guests from across America and many foreign nations.

Produced by Behold the Lamb Ministries, Inc., an independent 501(c)(3) nonprofit ministry, this stirring musical drama takes you through the Old Testament with the Children of Israel, to Passover Week, and ends with a spectacular Heaven finale!

The cast, choir, crews, and support staff of 400 represent communities from across Indiana: Noblesville, Westfield, Sheridan, Cicero, Carmel, Lapel, Tipton, Kempton, Kirkland, Kokomo, Arcadia, Atlanta,

## SECTION 504

The controversy comes from former president Joseph R. Biden's addition to the 504 plan to include "gender dysphoria," which is the sense of unease one might feel about one's biological sex assigned at birth and/or gender identity.

According to WFYI, Indiana Attorney General Todd Rokita says he is in "full support" of Section 504. However, he is against the additions made in May of 2024. He goes on to thank President Donald Trump for his intention to restore the 504 plan to its "original intent." The controversy comes from the lawsuit not only deeming former President Joe Biden's addition to the plan unconstitutional but the entire section itself with the way it is drawn. This would mean states could be able to more freely discriminate against those with disabilities, such as ADHD, asthma, diabetes, autism, etc.

While Todd Rokita says he believes these disabilities should be protected, the bill he is backing undercuts some of the basic rights given.

According to Fox 16 in Arkansas, Arkansas Attorney General Tim Griffin echoed the beliefs of Todd Rokita, stating, "We haven't challenged it; we're not trying to challenge that law itself. What we're challenging is the fact that the Biden administration said, 'Hey! We're going to add to what a disability is: the gender identity disorders and gender dysphoria.'"

Texas is leading the lawsuit despite having north of 400,000 students on 504 plans. According to Indiana University Bloomington, Indiana has around 12,000 total students on 504 plans. Sheridan, as well as all other schools in Indiana, would be crucially affected. School districts could deny assistance to those with disabilities and to those who desperately need help. Public schools in Indiana would have more freedom to deny any classroom assistance to said students.

The arguments supporting the new additions to the 504 plans being deemed unconstitutional are largely politically charged. Todd Rokita, Tim Griffin, the other attorneys general involved in the lawsuit, and Ken Paxton (the Attorney General of Texas) see "gender dysmorphia" as either a fake illness/handicap or one not severe enough to be protected under Section 504 acts.

The fact is, if the attorneys general of their respective states want to exclude gender dysmorphia from Section 504, then they should do it separately rather than deeming the entire section unconstitutional. The Attorney General said he believes President Donald Trump will restore the 504 plan to its original purpose, but specifics of said purpose have not been provided.

This next section is opinion-based.

The purpose of the Unit-

ed States of America's government, as well as the respective state governments themselves, should be to protect the rights and the needs of their people. Abraham Lincoln once famously spoke about a "government of the people, by the people, for the people." We cannot and should not exclude certain people from their basic protections because they are different from us or because they have what could be classified as mental or physical disabilities. The United States government needs to keep the intent of why it was formed: for freedom against oppression.

If we take away the protections for mentally, physically, or otherwise disabled children, does that not allow oppression to creep through the door we've kept shut with Section 504 for the past 50 years?

I ask the people in power in Indiana, the federal government, and throughout the United States of America: is protecting your political interests worth endangering the rights of children? Todd Rokita, Ken Paxton, and the 15 other respective Attorney Generals need to rethink their arguments. If they truly believe the initial Section 504 is constitutional and only the new additions are unconstitutional, then they need to rewrite the proposal or cut it altogether.

There is no halfway in people's welfare; there never should be halfways in politics, and we should not start now.

## SHARED

He had a plate of dumplings in front of him, but no calls from family, no visitors, no celebration. He wasn't bitter – just wistful, longing for a simple "Happy Birthday" from those he once held close.

It was a poignant reminder that food, no matter how delicious, tastes different when eaten alone.

Yet, in that room, something beautiful happened. We laughed over Girl Scout cookies, shared stories of holiday feasts, and filled the silence with warmth. In that moment, no one was forgotten.

At Taste of Community, we believe meals are more than just nourishment – they are moments of belonging. Whether it's a birthday, an anniversary, a festival, or just an ordinary day, the act of sitting together and truly listening turns an ordinary meal into something deeply

Photo provided by Pooja Thakkar

meaningful.

Still Waters embodies this philosophy every day, ensuring that their guests are not just cared for but truly seen. The center fosters an environment where stories matter, where traditions are honored, and where no one has to eat alone.

To all the fathers, mothers, grandparents, and elders

whose stories deserve to be heard: You are valued. Your memories, your traditions, your presence matter.

Let's pull up a chair, serve a plate, and share a story – before it's too late.

# Sheridan FFA banquet honors student achievements

### Submitted by Sheridan Community Schools

Sheridan High School's FFA Chapter held its annual banquet on Wednesday, March 26. This banquet brings together students, families, and the community for an evening of celebration and recognition. This event highlighted the hard work, leadership, and dedication of the FFA members throughout the school year.

The banquet puts a spotlight on the FFA members, allowing them to showcase their skills, thus demonstrating and reflecting their commitment to the organization and the industries that FFA encompasses. The ceremony honored members who excelled in various FFA activities, including leadership contests, district events, community service projects,

and the education initiatives the club sponsors.

A highlight of the evening was the recognition of students who participated in the District FFA Leadership Contest at Hamilton Heights High School in February. Sheridan FFA members received recognition in categories such as Agricultural Sales Presentation and Animal Science Demonstration. These accolades further demonstrate their knowledge and dedication to the industries.

This banquet serves as an opportunity to reflect on the chapter's accomplishments and the impact that FFA has on these young leaders. Mementos were shared from sponsors and other leading members on how this club has shaped the young leaders.

Photo provided by Sheridan Community Schools

This event emphasizes the importance of education and the lifelong skills that these students are gaining through

FFA as well as demonstrating the values of leadership, service, and excellence in the agricultural industry.

## Sheridan Public Library has full April calendar

# Noblesville’s Embrace Downtown project aims to improve pedestrian safety

By DANIELLE ZULKOSKY  
WISH-TV | [wishtv.com](http://wishtv.com)

Noblesville officials are launching the Embrace Downtown project to enhance infrastructure, and improve the functionality and safety of its downtown area.

“It can’t get going fast enough,” said Tim Ingle, a resident of downtown Noblesville. “There’s going to be a little pain before the end result.”

The project aims to update infrastructure such as water and sewer lines, while also focusing on pedestrian safety and aesthetics.

“If we’re going to do updating and replacing of that infrastructure, let’s look at pedestrian safety,” Mayor Chris Jensen said. “Let’s look at the aesthetics of our downtown. We really have a downtown square that was built for traffic and parking, and quite frankly, we really have a lot more pedestrians living and working and playing and staying in downtown. So, it’s really a chance to accomplish all of these goals in one project.”

This will be a years-long

Rendering courtesy American Structurepoint

This aerial view looks north along 9th Street on the east side of the Courthouse.

project. The city plans to wrap up phase one by the holidays in 2026.

“Being able to have all those things you need to make sure it’s safe, that’s long overdue and that’s gonna really set Noblesville apart,” Ingle said.

“Pedestrian safety is priority number one for us in any community, making sure the community can traverse our downtown safely,” Jensen said. “So, this is a worthwhile investment for us. Also, we want to invest in this infrastructure before

**More information & updates**

Initial design concepts are available online at [Embrace-DowntownNoblesville.com](http://Embrace-DowntownNoblesville.com). # Find the best ways to pay down debt

## Are you concerned about debt?

It’s important to recognize this, but, at the same time, you may have more ways of gaining control of your debt situation than you had realized.

To begin with, not all debts are bad – after all, your mortgage provides you with a place to live, a car loan provides transportation, and student loans may have helped you get the career you wanted. In fact, the wise use of debt can be a key part of your overall financial strategy.

Nonetheless, if you’re worried about what you owe, you’ve certainly got company. Nearly 60 percent of Americans say they are struggling with debt, according to a recent study by WalletHub, an online personal finance site.

How can you ease these struggles? It may help to follow these steps:

### Know your debt

Create a list that includes your mortgage, auto loans, student loans, medical debt, credit card debt, and any installment purchases you’ve made. Then, add up the total amount you owe and calculate your debt-to-income ratio by dividing your total monthly debt payments by your gross monthly income. (For revolving debt, such as credit cards, use the minimum payments in this calculation.)

Ideally, you’d like to have a debt-to-income ratio below 35 percent if you have a mortgage, or 20 percent if you don’t.

**COLUMNIST**

**COREY SYLVESTER**  
*Cicero Edward Jones*

## Look for restructuring opportunities

By restructuring debt, you may be able to pay it down more quickly. You can do this by refinancing debts, perhaps by transferring credit card debt to a new

card with a low introductory rate or by replacing your mortgage or auto loan with one that carries a lower rate. You might also consider swapping debts, possibly by using secured debt, such as a home equity loan or securities-based lending, to pay off higher-rate unsecured loans. Or you could consolidate debt by using secured debt to pay off several high-interest debts or transferring multiple credit card debts into one new card with a lower rate and minimal transfer fees.

### Determine how much money will go to debt payments

You do have some latitude as to how much money you’ll devote to paying debts each month. To avoid incurring late fees or other penalties, you’ll need to make the minimum payments, which means a flat amount for some loans, such as your mortgage, and a percentage of the outstanding balance on other debts, especially your credit cards.

After you’ve paid the minimum, though, you can choose to pay more, which can shorten the life of the debt and reduce total interest charges, or you can use the money for other goals, such as saving for your retirement or your children’s

education.

### Prioritize your debts

If you can make extra payments on your debts, it’s helpful to prioritize them. You could choose the “avalanche” method by paying the debt with the highest interest rate first, or you could instead follow the “snowball” method by first tackling the debt with the lowest balance. The avalanche technique can help you minimize interest payments, while the snowball approach can give you a psychological boost by reducing the overall number of debts you’re carrying, although it could result in your paying more interest over time.

Debt may be a fact of life – but if you manage it wisely, life can be a lot less stressful.

Indianapolis

**Program Type**  
Workshop

**APPLY**

Veterans Apply here  
<https://www.tfaforms.com/5027807?campid=701Up00000HAKOgIAP>

This interactive 3-hour workshop equips participants with the tools and confidence to share their stories, advocate for causes, and excel in professional and personal communication.

Designed specifically for individuals with military backgrounds, the workshop focuses on leveraging their unique experiences to captivate audiences, foster connections, and inspire action. Through hands-on exercises, personalized feedback, and proven techniques, participants will leave with practical skills to become effective and compelling speakers.

### About the Instructor

Jeff McKinney, PhD, is an experienced coach, facilitator, teacher, and mentor who supports his clients as they navigate their journey of self-awareness and transformation by supporting and challenging them to grow personally and professionally. He strives to ensure that the people who experience his coaching or training leave those interactions with knowledge and tools to take the action necessary to change for the better.

# Get ready to rock!

## Two former lead singers to share the stage at Payne & Mencias Palladium

**The REPORTER**

Jason Scheff, longtime but now former lead singer of the band Chicago, and Tommy DeCarlo, former second lead singer of the band Boston, will team up for a night of unforgettable classic rock music spanning the 70s, 80s and 90s at 7 p.m. July 31 at the Payne & Mencias Palladium at the Allied Solutions Center for the Performing Arts in Carmel.

This musical tribute features two great sets of classic hits with the timeless ballads of Chicago and the guitar-driven rock music of Boston. Over 15 million fans have attended a live Chicago or a live Boston concert over a 32-year span featuring either Scheff's or DeCarlo's signature high-tenor lead vocals.

Scheff joined Chicago in 1985 as lead singer/songwriter/bass player and went on to perform thousands of

See Jason Scheff (left) and Tommy DeCarlo (right) on July 31 in Carmel.

live concerts spanning four decades during a non-stop touring and recording career with the band. Jason contributed vocals, bass, keyboards and songwriting, spanning 18 Chicago albums and 98 songs, including lead vocals on the 1986 No. 3 *Billboard* Hot 100 chart hit single "Will You Still Love Me?"

DeCarlo joined Boston in 2008 after the passing of

Brad Delp in 2007 and has been the lead singer on every Boston tour thereafter, including 2008, 2012, 2014, 2015, 2016, and the latest in 2017. In 2013, he sang four songs on Boston's sixth and latest studio album, *Life, Love & Hope*, including the title track.

Don't miss these two great lead singers along with a top band of touring

professionals, which includes Steve Ferlazzo (Avril Lavigne) keyboards/vocals/music director, August Zadra (Dennis DeYoung) lead guitar/vocals, Steve Fekete (America) lead guitar/vocals, Mike Morales (Dennis DeYoung) drums, Tommy DeCarlo Jr. lead guitar/vocals, and JJo Oberle (Sarah McLachlan) bass/vocals.

# Centier Bank named best Retail Bank for Customer Satisfaction

**The REPORTER**

Centier Bank, Indiana's largest private, six generations family-owned and operated bank, has announced its No. 1 ranking in customer satisfaction in the recently released **J.D. Power 2025 U.S. Retail Banking Satisfaction Study**. This marks Centier Bank's first-ever J.D. Power award for retail banking in the North Central region, which includes Indiana, Michigan, Ohio, Kentucky, and West Virginia.

"This recognition is an honor and privilege we owe to our outstanding Associates, who intentionally and consistently enrich our customers' financial journeys," said Michael E. Schrage, Centier Bank's Chief Executive Officer and Chairman of the Board. "The customer-focused nature of the study speaks directly to the heart of Centier's mission over our 130-year history as a community bank."

This year's study is based on responses from more than 100,000 retail customers in the United States regarding their experiences with their retail banking institutions. Responses were fielded from January 2024 through January 2025.

Centier Bank ranked No. 1 in six of the seven dimensions of the study:

- Level of Trust
- Helping to save time or money
- Allowing customers to bank how and when they want

- Account offerings meeting needs
  - Resolving problems of complaints
  - People
- "Our customers are guests, friends, and valued members of the communities in which we operate, and we are proud to know they are receiving meaningful service, guidance, and connection across the Centier footprint," Schrage said.

Centier has been named a Best Place to Work for 19 consecutive years by the Indiana Chamber of Commerce. In 2024 Forbes ranked Centier as Indiana's top-rated bank in its Best-in-State Banks list. It was the bank's seventh consecutive year on the list, which is also based on customer satisfaction data. Centier was also named the best bank to work for in Indiana, and No. 2 across banks with assets between \$3-\$10 billion in American Banker's 2024 Best Banks to Work For list.

More information on the J.D. Power 2025 U.S. Retail Banking Satisfaction Study can be found [here](#). To learn more about Centier Bank, visit [centier.com](#).

# Don't scan QR codes on unexpected packages

**The REPORTER**

A package you didn't order could be a fun surprise, but be careful – especially if it comes with a QR code. It might be the setup for a scam.

In a **"brushing" scam**, you receive a package you didn't order, often without a return address. This is often a setup by unscrupulous companies who found your address online. After the company ships the product to you, they can post a fake, positive review on your behalf to improve their store's ratings and get more sales.

Reports to BBB Scam Tracker over the last few months show a twist on brushing scams where the package contains a QR code. The code comes with instructions to scan it to find out who sent the package or how to start a return. Scanning the QR code can lead to a phishing website or download malware onto your device.

In one BBB Scam Tracker report, a consumer received a package of pasta via Amazon in her name. Thinking it was a gift from

a friend, she scanned the QR code that came with the package. The QR code took her to a website that appeared to be Amazon. The consumer said she has received a higher-than-normal amount of scam emails since scanning the QR code.

In another BBB Scam Tracker report, a consumer received a ring in the mail that he did not order. The ring came with a QR code. The consumer checked BBB Scam Tracker before scanning the code, and after reading other reports about

brushing scams, he decided not to scan it.

It might seem like there are no downsides to a free package, but it could be a sign that someone is using your personal information for their own gain. If this happens to you, BBB recommends checking the security of your accounts and notifying the retailer who sent you the package.

Here's what to do if you receive a package you didn't order:

See *QR ...* Page 8

# Stony Creek church of Christ

We are a group of Christians doing our best to follow the Bible and nothing more. No outside organization(s). No man-made traditions. No additions or subtractions. Just hearts fully set on Jesus, His church, His word, and living His ways. We would LOVE for you to come join us! Please let us know if you are interested in having a personal Bible study.

## WHY THE BIBLE?

## THE BIBLE AND ARCHAEOLOGY DISCOVERIES.

Consider just a few of many archaeological discoveries that prove the Bible's accuracy in revealing historical people, events, and places (from "[Archaeological Finds](#)").

The Tel Dan Stele was discovered in Israel and is dated back to the ninth century BC. It mentions the "House of David," shattering the long-held view of many skeptics that David was a mythical person.

The Mesha Stele describes Moab's subjection under Omri, the king of Israel. It also references the personal name of the God of the Bible (Yahweh), and very likely contains a reference to the "House of David."

The Pilate stone provides archaeological evidence for the existence of the man who sentenced Jesus to death on the Cross. Skeptics frequently denied his existence until the discovery of this stone, which identifies Pontius Pilate as the Prefect of Judea.

### Letter to the Editor

## Shaffer shares top 10 high school ranking

Dear Editor:

The latest *U.S. News & World Report* ranking of high schools should give the shakes to many Hamilton County educators.

Here is the top 10 ranking for Indiana’s 433 high schools:

1. Signature School, Evansville
2. The Indiana Academy, Muncie
3. West Lafayette Jr./Sr. High School
4. Zionsville Community High School
5. Herron High School
6. Carmel High School
7. Speedway Senior High School
8. Westfield High School
9. Munster High School
10. Fishers High School

The rankings were based on a range of objective measures.

Parents of high schoolers might wish to discuss these findings with their kids’ mentors.

**Bill Shaffer**

### Letter to the Editor

## Cannaley calls on state legislators to support “cleanest and cheapest” new energy sources

Dear Editor:

While some members of the Indiana General Assembly are working on important issues such as health-care and public safety, others are continuing with their “culture war” issues.

For example, everyone knows that dirty fossil fuels, such as coal, oil, propane and fossil gas, are the main cause of global warming. That is uncontested. But some of our legislators recently passed a bill to call these dirty fossil fuels “clean energy resources.”

Why is it important to call dirty fossil fuels “clean,” you might ask? Because if you call something by a different name, it is more palatable to low-information voters who might then allow their legislators to pass bills canceling the closing of old, outdated, and inefficient coal-burning power plants, or converting these dirty plants to very slightly less-dirty fossil gas plants.

Renewable energy sources, such as solar and wind, along with battery storage, are already the cleanest and cheapest sources of new energy.

Apparently, our legislators are OK with continuing to pollute the environment for ourselves, our children, and our grandchildren.

**Monica Cannaley**

## QR

from Page 7

### • Don’t scan QR codes.

They might take you to a phishing site that steals your personal information or download malware onto your device.

• **Protect your identity.** If you did scan the QR code and enter personal information, change your passwords for any accounts that may have been compromised, and enable two-factor authentication. Keep a close eye on your credit reports and credit card bills after you receive the package.

• **Notify the retailer.** If you can tell where the package is from, go directly to the retailer’s website to get their contact information and report the package as a scam. **Retailers like Amazon have policies banning brushing and fake reviews,** and they will investigate your report.

• **Check for fake reviews.** If you can identify the company that sent you the packages, look for false reviews in your name and report them to the retailer.

• **Pause deliveries.** One package is no big deal, but some targets of brushing scams are overwhelmed

with a floor of unordered packages, creating a serious problem. If this happens, you may want to consider temporarily refusing package delivery at your home address and directing your real orders to a package acceptance service.

• **Keep the package.** The one silver lining of brushing scams is that you get to keep the gift – the **Federal Trade Commission** says you have a legal right to keep unordered merchandise. Don’t try to return it, especially if there are instructions to scan a QR code or enter information. It could needlessly compromise more of your personal information.

### For more information

• Visit **BBB’s online shopping HQ** for more tips on shopping safely online.

• Read **BBB’s article on brushing scams.**

• Stay alert to shipping fraud by visiting **FedEx’s website, U.S. Postal Service** and **UPS’s online resource center.**

• If you spot a delivery scam, report it. Visit **BBB.org/ScamTracker** to report your experience and help others learn the signs of a scam.

# Dixon elected Northern GOP Club vice president

Dustin Dixon (left) has been elected the Vice President of the Northern Hamilton County GOP Club. He joins President Emily Pearson (right), Treasurer Adrienne Rogers, and Secretary Heather Souder.

# Social Security’s new (old) overpayment rule

Last spring, *60 Minutes* did a report on the Social Security Administration (SSA) that caused the SSA to change the way it recoups money when people are overpaid. That rule was just changed back to the traditional repayment schedule. Starting April 1, 2025, if you are overpaid, the SSA will stop all future payments to you until your debt is repaid.

For people who are put into dire financial crisis when their monthly Social Security checks stop, it is possible to file Form SSA-634-BK and plead your hardship. For those who can afford to pay the government back, but need a less stiff repayment plan, they can file Form SSA-634 to ask for an exception.

So how do people end up in an overpayment situation? First and foremost, by not taking the time to learn the rules surrounding the type of Social Security benefit you are receiving. It’s work. No one is here to spoon-feed you the information. The most common mistake happens when people file to draw Social Security earlier than their Full Retirement Age (a sliding scale based on the

year you were born, but not later than age 67).

If you want to draw your Social Security this year, and you are 62 to 66 years old, you can only make \$23,400 in gross, annual wages. This is called your earned income limit. It only includes wages from a job or net income if you are self-employed. Your Social Security benefit, pension, interest, dividends, capital gains, lottery winnings, rental income, and all other sources of Passive Income are excluded. Only your Active Income is limited. The income limits go away at your Full Retirement Age.

Avoid problems by NOT applying for Social Security when you are under your Full Retirement Age and plan to work full-time. Immediately report a change in income to the SSA to avoid getting into an overpayment situation. Yes, even those on Social Security Disability Insurance (SSDI) are allowed to work a little. Exceeding their income limit will cause their SSDI benefits to stop!

The problems at the SSA are well known. They expect to cut 7,000 workers and they have been at

their lowest staffing in the past decade. They stopped walk-in appointments unless it is an emergency. It can take months to get a scheduled appointment. They often give out incorrect or incomplete information requiring you to go back several times. The biggest complaint is that wait times when calling the national number can be up to several hours!

Do your research. Take responsibility for learning about your benefit qualifications and rules. Yes, the government could do a better job, but let’s each of us do a better job of managing our benefits, too.

People say that clawing back 100 percent of an overpayment is cruel. But do you want the government to be in the business of giving out interest-free loans when people were overpaid by the SSA? Maybe it’s time for *60 Minutes* to do another special.

Submitted by  
Office of the Governor

On Friday, Governor Mike Braun announced the appointments of Lyndsay Quist as Commissioner of the Indiana Department of Transportation (INDOT) and Warren Lenard as Director of the Indiana Office of Technology (IOT), and Jennifer Ruby as Indiana’s Public Access Counselor, a role dedicated to ensuring transparency in government. The INDOT and IOT appointments are effective Monday, March 31.

\*\*\* The INDOT Commissioner oversees the planning, building, and maintenance of safe and innovative transportation infrastructure that enhances quality of life, drives economic growth, and accommodates new modes of transport. “As the crossroads of America, our roads and transportation are criti-

cal for driving economic growth in our state,” Gov. Braun said. “Lyndsay Quist’s experience of over a decade with INDOT as well as her experience as an engineer with the U.S. Army Corps of Engineers has prepared her well to step into this role and serve Hoosiers.”

Quist was appointed Deputy Commissioner Capital Program Management in May 2022. As Deputy Commissioner of Capital Program Management, she led the Capital Program, Local Program, Major Projects, Special Projects, Environmental, Engineering, Asset Management, Right-of-Way Services, Multimodal, and Innovation. She has served in multiple roles with INDOT since 2013.

Before joining INDOT, Quist began her career with the U.S. Army Corps of Engineers at the New Orleans District in Louisiana. She has a Bachelor of Science degree

in Civil Engineering from Purdue University. \*\*\*

The IOT Director oversees efforts to consolidate IT organizations across Indiana state government with the goal of providing great service at a low cost.

“IOT works behind the scenes to keep state government afloat and operational,” Gov. Braun said. “I am excited to announce that Warren Lenard will serve as the next Director of the Indiana Office of Technology. His private sector experience brings the type of entrepreneurial mindset that our state government so desperately needs.”

Lenard has most recently served as the Chief Operations and Information Officer for Byrider Auto Sales in Carmel and as the VP of Technology and Operations

Braun

for JD Sports Finish Line in Indianapolis. Lenard is a highly experienced Information Technology leader and executive officer that has successfully rebuilt and elevated organizations through people development and mentorship, brand and reputation rebuilding, and the establishment of key business partnerships across multiple industries including retail, entertainment & media, legal and financial services.

Lenard received his Bachelor of Science degree in Computer Science and Applied Mathematics from Stony Brook University.

\*\*\*

Indiana’s Public Access Counselor is responsible for ensuring transparency in government by responding to public inquiries, educat-

ing citizens about public access laws, issuing advisory opinions, assisting state officials in complying with public access law, and making recommendations to the General Assembly on how to improve our citizens’ access to our state and local government.

“Transparency for Hoosiers is important for a healthy state government, and Jennifer Ruby brings decades of legal expertise to serve Hoosiers as Public Access Counselor,” Gov. Braun said. “She will do a great job promoting public trust through transparency and accountability.”

In addition to her extensive legal experience as an attorney and mediator, Ruby is also an entrepreneur who built her legal practice in Indianapolis over 20 years. She has almost 15 years of experience in state and local government, serving the State of Indiana, the State of New Mexico, and the Con-

solidated City of Indianapolis and Marion County.

Ruby holds Doctor of Jurisprudence from the Indiana University (IU) McKinney School of Law, a Master of Planning from the IU O’Neill School of Public and Environmental Affairs, and a Bachelor of Science in Biochemistry from Purdue University. She admitted to practice law in Indiana and New Mexico and is a member of the American Institute of Certified Planners (AICP).

“I’m honored to be selected by Governor Braun to serve as Hoosiers’ Public Access Counselor and uphold the values of government transparency and accountability,” Jennifer Ruby, AICP, JD, said. “Public access is essential for effective governance, and I look forward to serving our state in this role.”

Ruby and her husband Michael have two children and reside in Indianapolis.

# \$39.1M settlement with Apotex moves forward

## Indiana joins 50 states & territories in generic drug price-fixing case

The REPORTER

Indiana Attorney General Todd Rokita is calling on all Hoosiers to check their eligibility for compensation for certain generic drug purchases as Indiana joins 50 states and territories in seeking preliminary approval for a \$39.1 million settlement with Apotex over conspiracy to inflate prices and limit competition.

AG Rokita and the multistate coalition previously announced the settlement in principle with Apotex last fall along with a \$10 million settlement with Heritage Pharmaceuticals. At the time of that announcement, the settlement with Apotex was conditioned on the signatures of all necessary states and territories. With those signatures now obtained, the coalition has filed the settlement in U.S. District Court for the District of Connecticut in Hartford.

“Hoosiers deserve fair pricing for their medications, and we will not tolerate illegal schemes that drive up costs and harm

consumers,” AG Rokita said. “This settlement is a step toward making things right, and I encourage anyone who purchased these generic drugs to see if they’re eligible for compensation.”

The settlement agreements resolve allegations that both Apotex and Heritage engaged in widespread, long-running conspiracies to artificially inflate and manipulate prices, reduce competition, and unreasonably restrain trade with regard to numerous generic prescription drugs. As part of the settlement agreements, both Apotex and Heritage have agreed to cooperate in the ongoing multistate litigations against 30 corporate defendants and 25 individual executives. Both companies have further agreed to a series of internal reforms to ensure fair competition and compliance with antitrust laws.

Indiana is among a

Rokita

coalition of nearly all states and territories filing three anti-trust complaints, starting first in 2016.

The cases all stem from a series of investigations built on evidence from several cooperating witnesses at the core of the different conspiracies, a massive document database of over 20 million documents, and a phone records database containing millions of call detail records and contact information for over 600 sales and pricing individuals in the generics industry.

For any consumer who purchased a generic prescription drug [listed here](#) between 2010 and 2018, they may be eligible for compensation. To determine their eligibility, they can call 1-866-290-0182 (Toll-Free), email [info@AGGenericDrugs.com](mailto:info@AGGenericDrugs.com), or visit [AGGenericDrugs.com](http://AGGenericDrugs.com).

## LOCAL NEWS & SPORTS COVERAGE

# IN HAMILTON COUNTY

# Join Emagine Entertainment for April specialty screenings

## The REPORTER

Join Emagine Entertainment in April for a variety of specialty screenings. Each month guests can watch some of the newest film releases with an enhanced experience.

Emagine Noblesville is located at 13825 Norell Road in Hamilton Town Center.

### Open Caption film screenings

Emagine will hold Open Caption showings of some of the newest film releases on Sunday and Wednesday afternoons all month long. Guests who are deaf or hard of hearing will be able to enjoy the

movie-going experience with audio subtitles displayed on the big screen for all to see.

*All open caption movies are shown in 2D. There are no modifications made to the film.*

• **Death of a Unicorn** – Wednesday, April 4

• **Minecraft** – Sunday, April 6 and Wednesday, April 9

• **Drop** – Sunday, April 13 and Wednesday, April 16

• **Sinners** – Easter Sunday, April 20 and Wednesday, April 23

• **The Accountant 2** – Sunday, April 27 and Wednesday, April 30

### Sensory Friendly film screenings

Emagine will hold a unique, sensory friendly screening twice a month, with specific modifications made to ensure an enjoyable experience for individuals with sensory needs and their supporters. Their sensory friendly programing makes going to the movies a more enjoyable experience for families, children, and teens with sensory needs.

*All sensory friendly films will be shown in 2D. Note: there are no modifications made to the film.*

### What does Sensory Friendly mean?

First, it means sensory

friendly experience (lights up a bit, sound down a bit). Second, if your child needs to get up, move, dance, sing ... no problem. Third, guests are welcome to bring a safe snack for any food allergies or food avoidance/restrictions.

• **Minecraft** – Saturday, April 5

• **King of Kings** – Saturday, April 19

\*\*\*

Tickets are available at the box office, online at [Emagine-Entertainment.com](http://Emagine-Entertainment.com) or through the Emagine App. On-sale dates vary. All films, locations, dates, and times are subject to change.

## TODAY'S BIBLE READING

### SETTING UP THE TABERNACLE

*Then he put up the curtain at the entrance to the tabernacle. He set the altar of burnt offering near the entrance to the tabernacle, the tent of meeting, and offered on it burnt offerings and grain offerings, as the LORD commanded him.*

*He placed the basin between the tent of meeting and the altar and put water in it for washing, and Moses and Aaron and his sons used it to wash their hands and feet. They washed whenever they entered the tent of meeting or approached the altar, as the LORD commanded Moses.*

*Then Moses set up the courtyard around the tabernacle and altar and put up the curtain at the entrance to the courtyard. And so Moses finished the work.*

### THE GLORY OF THE LORD

*Then the cloud covered the tent of meeting, and the glory of the LORD filled the tabernacle. Moses could not enter the tent of meeting because the cloud had settled on it, and the glory of the Lord filled the tabernacle.*

*In all the travels of the Israelites, whenever the cloud lifted from above the tabernacle, they would set out; but if the cloud did not lift, they did not set out—until the day it lifted. So the cloud of the LORD was over the tabernacle by day, and fire was in the cloud by night, in the sight of all the Israelites during all their travels.*

*Exodus 40:28-38 (NIV)*

## Kroger unveils “Elite Ate” snack bracket

### Submitted

The Kroger Co. celebrates tournament season with the launch of its “Elite Ate” Snack Bracket, featuring a delicious lineup of customers’ favorite snacks from Kroger’s Our Brands. From savory chips to sweet treats, it is a snack-off with exclusive deals on the ultimate game day eats. The retailer is also giving the inside scoop on which snacks are MVPs among Kroger associates.

“Kroger’s Our Brands products are fan favorites across the board and make for a perfect snack line up that is tasty and affordable when watching college hoops,” said Mike Murphy, Kroger group vice president. “Make your watch party a slam dunk with our ‘Elite Ate’ bracket challenge

and see what snack comes out on top.”

Kroger’s Our Brands “Elite Ate” Snacks are:

• Kroger Brand Stuffed Jalapeno Peppers with Cream Cheese vs. Kroger Brand Breaded Dill Pickle Chips

• Bakery Fresh Basketball Themed Cupcakes vs. Bakery Fresh Chocolate Chip Cookie Cake

• Simple Truth Sea Salt Baked Pretzel Thin Crisps vs. Simple Truth Organic Blue Corn Tortilla Chips

• Private Selection Gruyere and Caramelized Onion Dip vs. Private Selection Traditional Hummus

Customers can also count on an easy layup for their snack spreads with an assist from Kroger associates who dished on their favorite Our Brands’ dips and

Graphic provided by Kroger

dippers, including:

• Kroger Brand French Onion Sour Cream Dip with Kroger Brand Lightly Salted Wavy Potato Chips

• Private Selection Mediterranean Herb Hummus with Simple Truth Organic Baby Carrots

• Simple Truth Organic Restaurant Style Salsa with Simple Truth Organic White Corn Tortilla Chips

Run up the score at

watch parties with inspiration from Kroger’s Fresh Lane with all-star recipes such as a chicken wing snack board, hot Italian sliders, waffle fry chicken nachos, and more.

For even more basketball snacks and everyday savings, visit [Kroger.com](http://Kroger.com) or the Kroger app, offering more than \$600 in savings available weekly in digital coupons.

### The Reporter’s policy on obituaries

The Hamilton County Reporter does not charge families for publishing obituary notices in our pages. Every obituary appearing in online editions Wednesday through Saturday also appears in our Monday print editions. In order to continue to offer this as a community service, we ask that obituaries not exceed 500 words. The limitations of space may not allow for longer ones to appear in print.

Families and funeral homes are asked to submit obituaries at [ReadTheReporter.com/obitform](http://ReadTheReporter.com/obitform).

## Boys Basketball State Championship Preview

# Class 4A, Fishers Tigers

*Tigers are aiming to win back-to-back state championships*

By **CRAIG ADKINS**  
For The Reporter

One of the hardest things to do in any sport is to repeat as a champion. They were there last year and won Class 4A and now have a chance to go back-to-back.

“To me, I think this program has arrived regardless of the outcome on Saturday. You win a state championship and get back. I think we’ve arrived and it’s just personal pride to accomplish what we set out to do. We have a very unique team that has bought into a centralized mission and vision which was to get back here and they’ve done everything we’ve asked to make that happen,” said Fishers head coach Garrett Winegar.

Fishers has won 43 games in a row, the fifth longest streak in state history and 59 of their last 60 and they don’t seem to be stopping at any point. It hasn’t been too long since a team has repeated. Technically, Carmel (4A) and Silver Creek (3A) both accomplished that feat in 2019 and 2021. The Covid-19 outbreak canceled the remainder of the 2020 state tournament just before the regional round or it would have been possible for a three-peat by both squads.

“At the end of the day this is our goal,” Winegar said. “If you’re going to play, the goal is to win it all. Your goal is to win a state championship. Obviously, it starts with Sectional 8, and it’s very competitive, but our goal is to win. Our goal is to win a state championship.”

**No. 1 Fishers Tigers (30-0) vs. No. 7 Jeffersonville Red Devils (23-5)**

Ben Davis was the last to go undefeated in 2023 at 33-0 and Warren Central went 32-0 in 2018.

(ABOVE LEFT) Fishers’ JonAnthony Hall (right) is averaging 10.1 points per game for the Tigers. At left is senior Millen McCartney, who adds 9.2 points per contest. (ABOVE RIGHT) Nathan Baker is scoring 7.8 points per game for Fishers.

“Everyone thinks we have a lot more pressure because we’re the defending champs, but there’s not much to say other than being prepared. We know if we come out with the same energy, mentality and focus every single game, that outcome is going to be the same,” Fishers senior Justin Kirby said. “Definitely having our five seniors is a big key to this success. Having a lot of us playing together for so long and growing up together is a big part of our chemistry and how we’ve played so well.”

Their chemistry is a

big reason they have gotten back to the state finals. There might not be a more confident team around. But, when you’ve won 43 in a row and lost once in 60 games, confidence must be through the roof.

“It’s going to be no different preparing for this game than preparing for any other game. Everything is going to be the same leading up to the game. It doesn’t matter the environment. It doesn’t matter where in the world. Every game is the same. We’re going to be the most prepared team in this gym and be the

most locked in team for this game,” Kirby continued.

Fishers ran the table in the Hoosier Crossroads Conference with ease (7-0). That has made them battle-tested to make another run through the state tournament.

“Our conference is one of the best up there, and I think this solidifies it as well. For our city, our county and everybody. I’ve seen a lot of people on social media almost doubting our ability to handle business, so we’re doing everything we can to win,” said Fishers senior JonAnthony Hall.

A balanced offense of

sophomore Jason Gardner, Jr. (14.4), Kirby (13.0), super soph Cooper Zachary (11.3), Hall (10.1), along with seniors Millen McCartney (9.2), Nathan Baker (7.8) and Logan Sigler (4.8) makes Fishers go, but Jeffersonville also presents a big challenge for the Tigers.

“They all have the attributes and the variables that all programs look for. They have tough-nosed, high-character, disciplined kids that are well-coached. The one thing we noticed that probably doesn’t get mentioned a lot is how close-knit they are,” Jeff-

ersonville head coach Sherron Wilkerson said. “That in itself is what allowed them to have the success that they’ve had thus far.”

The Red Devils have 41 sectional, 20 regional and seven semi-state titles. They made the Final Four in the single-class era in 1992, 1993 and 1995, winning the 1993 state title over Ben Davis.

Wilkerson is in his third year at 56-22. The Red Devils lost in the semi-state championship to Ben Davis last season (52-51).

## Softball

# Royals win all-county game, Huskies fall to Lapel

### The REPORTER

The Hamilton Southeastern softball team won an all-county game over Carmel 10-3 Friday at the Greyhounds’ Cherry Tree Softball Complex.

The Class 4A No. 1 Royals scored a run in the top of the first inning when an RBI fielder’s choice from Makena Burlingame brought Lilly Palmer home. That would be the only run until the fourth inning, when Carmel tied the game after Jayden Kleiner scored on a passed ball; she led off the inning with a triple.

Southeastern jumped ahead 4-1 by scoring three runs in the top of the fifth. Burlingame singled in Addison Richmond, then Maya Valenta’s left field hit brought Palmer home. Kaleigh McCarter got home on a wild pitch.

The Royals added five

more runs in the sixth inning. McCarter singled Chloe Smith home, Burlingame’s center field hit brought in Tori Bricker, then Richmond and McCarter both scored on a wild pitch. Burlingame then scored on an error to give HSE a 9-1 lead.

Carmel’s Ellie Goddard smacked a left field double in the bottom of the sixth to bring in Mia Fleming and Kleiner. The Royals got one more run in the top of the seventh after Smith led off with a triple, then scored on an error.

Burlingame and Valenta both had two hits, with Burlingame hitting a double. Grace Swedarsky pitched a complete game, striking out 15 against three hits and two walks.

Kleiner had two hits, while Fleming hit a double.

Southeastern is 2-0 and

plays at Greenfield-Central on Tuesday. Carmel is 0-3 and plays Tuesday at Plainfield.

\*\*\*  
Hamilton Heights dropped a 5-2 home game Friday to Lapel, the No.

1-ranked team in Class 2A.

The Bulldogs scored two runs in the first inning. The 3A No. 10 Huskies got a run back in the second inning when Isabel Morrow scored on a passed ball. The score stayed 2-1 until the top of the sixth, when Lapel added two more runs.

The Bulldogs scored again in the top of the seventh for a 5-1 lead. Hailey Hall hit a two-out single for the Huskies to bring Ava Snelson home, but Lapel would let the Huskies get no closer.

Hall finished the game with two hits. Heather Crays went five and two-thirds innings, striking out four.

“This year is definitely going to be a rebuilding year,” said first-year Heights coach Shelby Wills. She said with the new coaching staff and new young players coming on to the varsity roster, “working together and finding a way to jell is what we’re working at right now.”

The Huskies are 0-2 and are off until April 10 when they host Anderson.

Noblesville’s Curry, Walker among boys Junior All-Stars

**The REPORTER**  
Noblesville’s Justin Curry and Baron Walker are among the 18 players that have been selected to the *IndyStar* Indiana boys’ Junior All-Stars for 2025, All-Stars games director Mike Broughton announced Friday.

Curry was selected to the six-player Core Group, along with Luke Ertel of Mt. Vernon, Kai McGrew of Lawrence North, Steven Reynolds III of South Bend Washington, Dikembe Shaw of Crown Point and Noah Smith of Plainfield.

In addition to the core group, six players each were chosen for squads labeled Red Group and Blue Group. Walker was selected to the Blue Group, joining Ker-iawn Berry of Avon, Terrence Hayes Jr. of Gary 21st Century, Tyrese Jones of South Bend Riley, Brennan Miller of Lawrence North and Nick Shrewsberry of South Bend Saint Joseph.

The Red Group players are Kasen Daeger of Silver Creek, Anthony Fresh of Charlestown, Edwin Holmes of Princeton, JaShawn Ladd of Ben Davis, Blake Neill of Bloomfield and Treigh Schelsky of Parke Heritage.

Todd Woelfle of Terre Haute North will be the head coach and Eli Henson of Class 2A state State Finalist Manchester will be the assistant coach.

Woelfle directed Terre Haute North to a 21-6 record this past season with championships in Conference Indiana, the Bloomington South Sectional and the Washington Regional. In 17 seasons with the Patriots, he has a 254-173 mark with previous sectional titles in 2011, 2012 and 2022.

Noblesville’s Baron Walker (left) and Justin Curry (right) are among the 18 players selected to the *IndyStar* Indiana boys’ Junior All-Stars for 2025. Curry is in the six-player Core Group, while Walker is part of the Blue Group.

chester to a 25-2 campaign and his team will play Saturday in the Class 2A State Finals. He currently is 83-35 in five seasons with the Squires and has a career record of 192-139 in 14 seasons. Henson’s overall ledger includes a 63-56 mark with one sectional title at North White and a 46-48 slate in four seasons at Whitko. This season, Manchester also was co-champion of the Three Rivers Conference and claimed trophies in the Wabash Sectional, Logansport Regional and Michigan City Semi-State.

The Junior All-Stars will play one game against the Kentucky Junior All-Stars on Sunday, June 1 at Charlestown High School. The Junior All-Stars also will play one game against the Indiana All-Star senior

girls on Wednesday, June 4 at Greenfield-Central High School. Both games will be doubleheaders with the 2025 Indiana girls’ Junior All-Stars, whose roster was announced on March 9.

The players listed as Core Group players each will play in two games. The players listed in the Red and Blue groups each will play in one game, the Red Group on June 1 against the Kentucky Juniors and the Blue Group on June 4 against the Indiana Seniors.

The Indiana senior All-Stars will play the Kentucky senior All-Stars on June 6 at a site to be announced. The Indiana senior All-Stars will play Kentucky’s seniors again on June 7 at Gainbridge Fieldhouse in Indianapolis.

The third annual *Indy-*

*Star* Indiana All-Star “Futures Games” doubleheader will be played on June 2 at Fishers High School. The Futures Games will be a girls-boys doubleheader with Indiana-only squads of sophomores and freshmen in a North vs. South format. The Futures Games rosters will be announced later.

The 2025 Indiana boys’ Junior All-Star team was selected through a process that allows all IBCA-member head coaches to nominate players through the IBCA all-state process. The IBCA 22-member Indiana Basketball Coaches Association all-state committee reviewed and voted on players for the 2025 IBCA/Franciscan Health boys’ All-State teams that were released on March 26.

The 22 all-state com-

mittee members also provided input to a five-person IBCA committee appointed by IBCA executive director Marty Johnson and chaired by IBCA assistant director Brandon Ramsey. That committee finalized the selections for the 2025 boys’ Junior All-Stars.

The Indiana Junior All-Star program was founded in 1996 by former Indiana All-Star games director Patrick Aikman. In most years, 18 players have been chosen to the Junior All-Stars. In five years (2005, 2006, 2007, 2018 and 2019), 24 players were chosen to the Junior All-Stars. In 2021, just 12 players were chosen to the Junior All-Stars.

In games from 1996 through 2024 (with no games in 2020 because of COVID-19), the Indiana

Senior girls lead the Indiana Junior girls 41-12 and the Indiana Senior boys lead the Indiana Junior boys 42-11. In seven years of games against the Kentucky Juniors, the Indiana Junior girls lead 12-1 and the Indiana Junior boys lead 8-5. Games against the Kentucky Juniors previously have been played in 2012, 2013, 2014, 2018, 2019, 2022, 2023 and 2024.

The Indiana portion of the All-Star Games is organized and produced by the Indiana Basketball Coaches Association. The *Indianapolis Star*, with its *IndyStar* brand, is the title sponsor. Hoosier Shooting Academic is a presenting partner for All-Star Week. Energy Systems Group is a presenting partner of the Saturday doubleheader against Kentucky.

TIGERS

from Page 12

Overall, he's 95-98 with stints at Logansport, Madison, Shawe Memorial and Indianapolis Herron.

This will be the first-ever meeting between Fishers and Jeffersonville to cap off the 2024-25 basketball season.

"We're not really intimidated. 30-0 is impressive, but at the end of the day, we put on our shoes how they put on their shoes, so we're going to come in with a good mindset and be positive. Let the best man win," said Jeffersonville senior and Wright State commit Michael Cooper.

Jeffersonville touts three seniors in double figures. Cooper leads the way with 19.1 per game, followed by Northwestern commit Tre Singleton at 17.9 and 6.9 rebounds. Senior PJ Douglas scores 12.7 and grabs 5.2 rebounds, along with juniors Terrance Nord (5.2) and Elijah Cheeks. Seniors Shawn Boyd (4.1) and Gilly Polk (3.3) chip in.

"It's a huge challenge, but it's a great feeling to play them. We're going to go out there to prove a point, so it's exciting," said Red Devils senior Tre Singleton.

"We have a big challenge ahead of us. A couple of our guys play AAU with their three best players, so we're excited for the opportunity to compete," Winegar said.

"We just have kids that know I love them, and we have that mutual bond, so they're willing to be coached," Winegar said. "For me, win or lose, it's going to be a bittersweet night because it will be the last time coaching these guys."

# Reporter announces all-county boys swim teams

## Andrew Shackell named Hamilton County Reporter's Boys Swimmer of the Year

**The REPORTER**

For the second year in a row, the Hamilton County Reporter has named Carmel senior Andrew Shackell as its 2024-25 Boys Swimmer of the Year.

Shackell emulated his twin sister Alexandra Shackell by going 4-for-4 in state championships at this year's IHSAA boys state swim meet, winning the same events. Shackell claimed the butterfly race and was also a part of all three of the Greyhounds' state champion relays, helping Carmel to an 11th consecutive state title.
